

# Care Home Laundry

Care Home Laundry

---

## Overview

This course is designed to raise awareness of the importance of processing linen in a care home environment. The delegates will have an understating of how to implement the steps and procedures in order to achieve the Essential Quality Requirements. Laundry areas should be designed to minimise the risk of recontamination of linen and to ensure the protection of service-users and staff involved in the handling of used linen.

## Course content:

The following topics are covered in this course.

- Introduction – Policy and Procedures and Guidance
- Essential Quality requirements and best practice
- Best Practice and Linen processing requirements
- Safe Handling of dirty laundry and protection equipment
- Categorisation and segregation of linen. Standard process or Enhanced process
- Care home linen processing
- Care home linen processing best practice
- Management & provision, Engineering, equipment and validation

---

## Entry Requirements:

This course is suitable for all staff working in the laundry and collecting of bedsheets and changing. Best practice must be implemented to avoid diseases spreading.

---

## Assessment:

We can deliver this course on your premises, reducing costs in respect of additional time out and travelling. Our trainer will carry out on going assessments.

---
